AMENDMENT UNDER CFR 1.312

Sir:

Applicant hereby respectfully petitions for consideration and entry of the following amendments.

IN THE CLAIMS

1. (Currently Amended) A computer implemented method for providing access between a first party and a second party, said method comprising the steps of:

generating a challenge value using a disk drive controller at said first party;  
transmitting said challenge value to said second party;  
generating, using a secure hash algorithm, a response value using a combination of a lock value and said challenge value at said second party;  
wherein said lock value indicates a desired access mode;  
transmitting said response value to said first party, wherein said disk drive controller receives the challenge and lock value; and
